

# Mockapi.io

Após criar seu acesso no mockapi (<https://mockapi.io/>) crie um novo projeto:

Defina o nome e o prefixo e clique em CREATE:

A screenshot of the 'Create Project' modal form in Mockapi.io. The form has a close button (X) in the top right corner. It contains three main sections: 1. 'Project name' with a text input field containing 'Usuario', which is highlighted with a red box. 2. 'API Prefix (optional)' with a text input field containing '/api/v1', also highlighted with a red box. 3. 'Collaborators (optional)' with a text input field. Below the collaborators section is a yellow warning box that says 'This feature requires subscription' and a 'SEE PLANS' button. At the bottom of the form are two buttons: 'CANCEL' and 'CREATE'. The 'CREATE' button is highlighted with a red box.

Após criação, entre no projeto e crie um RESOURCE:

mockapi.io

Projects → U Usu

API endpoint  
https://650b1f8245d73d1...

**NEW RESOURCE**

**Resource name**  
Enter meaningful resource name, it will be used to generate API endpoints.

usuario

**Schema (optional)**  
Define Resource schema, it will be used to generate mock data.

|       |           |
|-------|-----------|
| id    | Object ID |
| nome  | STRING    |
| email | STRING    |
| senha | STRING    |

+

**Object template (optional)**  
To define more complex structure for your data use JSON template. You can reference Faker.js methods using `.`.

**EXAMPLE**

```
{  "username": "$internet.userName",  "knownIps": ["$internet.ip", "$internet.ipv6"],  "profile": {    "firstName": "$name.firstName",    "lastName": "$name.lastName",    "staticData": [100, 200, 300]  }}
```

JSON template

This feature requires subscription

**SEE PLANS**

CANCEL **CREATE**

PRONTO! Sua Api está criada!

Para persistir os dados nela, no seu formulário preencha o METHOD = "post" e ACTION = "caminho da api". O caminho da api você pode obter clicando no nome do seu resource:
